## Eastern Petroleum Supplies - Officially a Parker Velcon Distributor in the UK Market

We are pleased to announce that as of 1st August 2014 Eastern Petroleum Supplies (EPS) will become the official Parker Velcon (formerly Warner Lewis) Distributor, for the UK and Ireland.

By aligning ourselves with EPS we are better able to serve our customer's needs allowing for greater customer care and also improved service levels.

We want to assure you that the efficient, friendly service you have come to associate with Parker Velcon will not only continue, but be enhanced by the addition of the EPS team.

EPS will maintain its head office in Steeple, Essex, and for continuity of service will take over the existing Farnborough office also. Parker Velcon, Eaton Carter Brand, and Warner Lewis product requirements will be serviced from both locations. To further compliment this transition Simon Faul and Chris Everitt will remain with EPS, the existing contact details remain unchanged as an initial point of contact, for all future orders and enquiries.

We appreciate your business over the many years and want you to know that we and EPS look forward to continuing to serve your needs in the future.

Should you have any questions or queries, please do not hesitate to contact Richard Hooton on (00 44) 7785 521957 or at [Richard.Hooton@Parker.com](mailto:Richard.Hooton@Parker.com)
